Overall teaching is good

Nothing much

Nothing to say

no

Nil.

N

Everything is fine

Teach technology related concepts

More practical sessions

Nik

No

All good

Nice

Well and good

Better

Good teaching

..

1. Very good

Interactive and interesting

....

No Comments 👍

No suggestions,they are all teaching very good

It was good

It was good

Good teaching experience for the teachers

Allow students to participate in extra curricular activities, Be fair by every student, Give some space to involve them in their own interest and passion

Complete the syllabus on time

make some time to prepare for semester and please keep the model exam so it is helpful to score good marks in semester

Please make sometime to prepare

Could interact more and explain with more daily life examples

Extra notes and simple learning steps

Keep it up

Can often give video classes

Teach slowly

Well preparedness about the topic will be grateful

Giving more Practical Experience, Conducting more intercollege competition

Good keep improving

Before exam revision class. Before exam give study leave or time (between two exam)

Can make it more friendly and interactive

need more concern in practical Lab

Efficient sharing of knowledge in understandable way

Please dont omit portion and dont wast time during taking class

First teach for the engineering not for job, and technical contents must be implemented practically

Nothing to improve all the teaching were good

Teaching should be done in elaborated manner, with examples to develop skills

Teach with an model prototype

Can teach using smart board for better understanding

1. Daily study hour period for self learning is needed

Make some classes to be interested because all the periods teacher cannot make the periods interested but they need to try it. Otherwise no suggestions

Teaching with practical experiments. Give more real life examples. Connect the syllabus with real world applications

No all are fine .

na

Need elaborated notes

Teach what they use in their career, career based education like if one want to be a coder he/she get coach only about the coding other specified skills are not approach with them
