EVENTS AND WINNERS

SHERLOCC

This event was planned to introduce basic C programming language in a competitive style. It had two rounds where in Round 1, questions were in the form of crosswords, connections, spotting the error, and fill-ups. It exercised time management skills as well as technical skills and knowledge. Whereas, in Round 2, a member of the team acted out the logic in the given program and the other members were required to guess the right answer. It was filled with fun and excitement as the shortlisted teams were relying solely on creativity and resourcefulness.

Rules and Regulations for Round 1:
1. All the participants must carry a pen.
2. Questions are related to C programming and other technical topics.
3. The test is timed for 30 minutes.
4. Usage of phones is strictly prohibited.
5. Any kind of malpractice will lead to disqualification.

Rules and Regulations for Round 2:
1. The shortlisted teams are required to act out a program with the given code and help their team to guess the right name.
2. Participants are not supposed to speak, guide their teammate only through actions.
3. Full points will be given only if they provide the correct answer.
