GPA is the ratio of the sum of the products of the number of (C) credits of courses enrolled and the grade points (GP) scored in those courses, taken for all the courses, to the sum of the number of credits of all the courses in the semester.

\[
GPA = \frac{\text{Sum of } [C \times GP]}{\text{Sum of } C}
\]

CGPA will be calculated in a similar manner, taking into account all the courses right from first semester. “RA” grades will be excluded for calculating GPA and CGPA.

Wish You All The Best !!
