

Local Education Programmes

In Sairam, initiatives like Sairam MUN 3.0 and the Solid Waste Management Conclave reflect this commitment, engaging hundreds of participants, including students, educators, and community members, to foster climate awareness and resilience. **Sairam MUN 3.0** - held on April 29-30, 2024, targeted students from grade 7 and above, focusing on climate action. Through UN meeting simulations, students debated issues like disaster preparedness, gaining insight into climate change risks and policy impacts on local and global levels. Also they provide ideas for the audience on mitigation plans to reduce CO2 emission, alternative resources and various other ideas. **Solid Waste Management Conclave** on February 9, 2024, featured experts like Dr. Indumathi M. Nambi from IIT Madras, who trained participants on waste repurposing to reduce pollution and risks thereby promoting sustainable practices. In the conclave we used cloth bags for participants to give away their registration kits. To create awareness among the participants, stalls exhibiting recyclable products were also kept. Both events support SDGs 3, 12, and 13 by promoting public health, responsible consumption, and climate action. **IGEN Green day 2024** 1300+ students took SDG Pledge was taken between 22 October 2024 to 30 October 2024 implementing each one's favorite SDG. Already our institution's 8000+ students and staff have adopted college transport which reduces CO2 emissions throughout the year. Our Institution partnerships ensure effective climate education, building a resilient, climate-conscious community.

SEC EnSAV Club & IEEE SSIT SOCIETY
proudly presents
